RUGGED DEPENDABILITY

Expandable Payout Reel

This No. 81620 Expandable Payout Reel is designed to work in any position. Made of heat treated aluminum, these reels can be used singularly or mounted in any combination arrangement on a common stand to pay out multiple coils.

Loading is easily accomplished by folding the spring loaded fingers located on the outside of reel in position. The fingers will only fold in the right direction for use. The unique self-leveling scissor linkage is used to expand or contract the reel circumference to fit wire coils from 16" to 20" inside diameter and up to 10" wide.

The rope brake made to drag in one direction only ensures ease of rewinding, and assures even drag while paying out wire or cable. Overall width is 15". Can be mounted on a truck without using valuable needed space. Manufactured of heat treated aluminum.

FEATURES

- Self-leveling scissor linkage to expand or retract the reel circumference.
- Outside fingers, spring loaded, are designed to fold out of the way for easy loading of wire or cable.
- Rope brake, made to drag in one direction only, easily adjustable by linemen.
- Can be used in any combination arrangement on common stand to pay out multiple coils.
- Will accept wire coils from 16" to 20" inside diameter, and up to 10" in width
- Cast aluminum finish
- UPS shippable
- Single reel stand:
Weight: 53 lbs.
Height: 33-1/4"
Width: 27-1/2"
Depth: 18"

Product improvements may be introduced at any time, specifications are subject to change without notice.
